About Ouriginal Integration with Moodle

Ouriginal can be added to an institutional LMS through an API integration. The integration allows the institution Admin User(s) access to the Ouriginal tool features through their LMS without having to make changes to the LMS properties. Moodle institution Admin User(s) can add the Ouriginal tool to their Moodle instance, making it available to instructors as a preconfigured tool for their courses.

Student View

After you have submitted your file for assignment submission, you will see the „Submission status“ of your analysis.

- Under „File submissions“ you will see the file type and name of your submission.
- Next to it you will initially see a „gear“ icon depicting it's pending for analysis state.

The screenshot shows a Moodle submission status page. At the top, there is a text input field labeled "Generic Filename" with a greyed-out area. Below it, the "Submission status" section is underlined in red. The status is "Submitted for grading" (green background), "Grading status" is "Not graded", "Due date" is "Monday, 20 December 2021, 12:00 AM", "Time remaining" is "324 days 3 hours", and "Last modified" is "Friday, 29 January 2021, 8:17 PM". The "File submissions" section is highlighted with a red box and contains one entry: "Copy -Quick Start Guide - New Identity.v_2.pdf" with a PDF icon and a gear icon.
